

## Transportation – Hazardous Materials

Stop cargo thieves in their tracks  
Uncompromised Vehicle Command & Control  
... so you can relax and focus on other things.

The risk is high. The cargo you're transporting can pose a serious danger to the public if it falls into the wrong hands. **Are you in control of it at all times?** What have you done to safeguard your vehicle and its potentially dangerous contents against theft or hijacking?

Transporting hazardous materials can place you **high on the target list of thieves and yes, terrorists.**

If a theft or hijacking occurs, you could **lose customers to the competition, damage your reputation and put your livelihood at risk.** The loss of a load of hazardous goods may mean lives lost, and irreparable damage to your company.

### Peace of Mind

Ensure yours by installing MAGTEC's advanced security system on your trucks. MAGTEC is the only technology that allows transportation companies **COMPLETE ACCESS CONTROL** over their vehicles 24/7. With MAGTEC in place, you can:

- » Remotely Disable
- » Block Unauthorized Drivers
- » Maintain Complete Control
- » Secure Cargo
- » Keep Insurance Costs Down

Be the preferred choice for hazardous material shippers because of your reputation for prevention.

# DEAD SIMPLE TO USE

It starts with hardware installed on each vehicle — an on-board computer that automatically secures the vehicle. A simple, easy to use keypad allows access.

Each operator must enter a unique PIN before the engine can be started. That PIN can be remotely managed by using MAGTEC's secure, central management web-based software. This powerful, easy-to-use tool returns the operational power back to you, instantly.

In case of a hijacking, the driver has a wireless panic button, which allows the driver to shut down the truck and send an Immediate Alert.

Gain permanent command, control and visibility of your vehicle fleet and eliminate the risk associated with moving valuable goods and cargo through the supply chain.

## Get real-time answers to these questions

- » Where is my vehicle?
- » Who is operating the vehicle?
- » Are the goods where they are supposed to be?
- » Does the vehicle need to be shutdown immediately?
- » Are the drivers where they are supposed to be?
- » Are they operating the vehicle safely?
- » Is it being operated within the assigned zone?
- » Is it being operated out of the assigned schedule?

MAGTEC is the only advanced fleet security and control solution vetted by The Department of Homeland Security (DHS) and The Transportation Security Administration (TSA). We keep your vehicles, your cargo and your reputation safe.

## With MAGTEC's advanced command and control solutions you can

- » Set up driver profiles on vehicles
- » Set up geo-fences and routes
- » Report on operational statistics such as Run-time, Trip reports, Idle times, Driver ID and Exceptions
- » Automate Driver elogs (HOS)
- » Remotely enforce maximum speeds & idling
- » Set up operation schedules
- » Be notified immediately if the trailer doors are opened or if it deviates from a specified route
- » Check seat belt, engine status and other event indicators

- » Create multiple map views
- » Provide detailed location information

## Safeguard your drivers and their vehicles

Many companies are still under the impression that simple tracking or fleet management systems are enough to maximize security and increase productivity.

### They're wrong.

If you're transporting goods, you're on the hit list of cargo thieves. Knowing where your vehicle and trailer are might not be enough. Only MAGTEC can ensure authorized personnel alone are in control of your vehicles.

## MAGTEC - Maximize Control, Security and Profits

Install MAGTEC, so you can rest easy.

Call MAGTEC today to find out why our solutions are the preferred choice of companies who recognize that there is much more to safety and security than just tracking.

Ask MAGTEC how you can benefit from creative and customized insurance solutions, backed by a company vested in your success—the Chubb Group of Insurance Companies. MAGTEC customers are eligible for a deductible waiver on Chubb's **Motor Truck Cargo Legal Liability** policy.
