

Construction & Mining

Construction Asset Management and Control... so you can relax and focus on other things.

When a heavy piece of equipment starts its day, do you know who is operating it? It's an expensive piece of equipment - are only trained and authorized people running it? Do you know when it's due for maintenance or when it moves out of a predefined area? **Is it being used after hours?**

Do you know what your drivers are doing when no one's looking?

Unattended equipment is a prime target for theft, especially when all equipment is keyed alike. You could be faced with:

- » Replacement costs
- » Recovery costs
- » Deductibles
- » Skyrocketing insurance

If your equipment is stolen and you can't make a deadline, you could lose customers to one of your competitors. **Be the preferred choice because of your reputation for prevention.**

Peace of Mind

Ensure yours by installing MAGTEC's advanced security system on your assets. MAGTEC is the only technology that gives you **COMPLETE ACCESS CONTROL over your equipment 24/7**. With MAGTEC in place, you can:

- » Improve Safety
- » Enforce Compliance
- » Monitor Maintenance
- » Reduce Fuel Costs
- » Maintain Complete Control

MAGTEC allows you to monitor your equipment 24/7 with a comprehensive solution to stop theft, prevent unauthorized access and non-compliant operational use by returning command, control and full visibility back to you.

DEAD SIMPLE TO USE

It starts with hardware installed on each vehicle — an on-board computer that automatically secures the vehicle. A simple, easy to use keypad allows access.

Each operator must enter a unique PIN before the engine can be started. That PIN can be remotely managed by using MAGTEC's secure, central management web-based software. This powerful, easy-to-use tool returns the operational power back to the transportation company, instantly.

In case of an injury or incident, MAGTEC's Lone Worker/ Man Down solution gives your personnel the ability to signal for help.

Only MAGTEC offers a comprehensive solution 24/7 to prevent unauthorized use of your equipment, ensuring you maintain full visibility and control.

Get real-time answers to these questions

- » Is my equipment where it's supposed to be?
- » Who is operating my equipment?
- » Are my drivers where they're supposed to be?
- » Is my equipment safe?

With MAGTEC's advanced command and control solutions you can

- » Set up driver profiles on vehicles
- » Set up geo-fences and routes
- » Report on operational statistics such as Run-time, Trip reports, Idle times, Driver ID and Exceptions
- » Set up operation schedules
- » Receive real-time event notifications

- » Check seat belt, engine status and other event indicators
- » Create multiple map views
- » Provide detailed location information

MAGTEC is the only advanced fleet security and control solution vetted by The Department of Homeland Security (DHS) and The Transportation Security Administration (TSA). We keep your vehicles, your cargo and your reputation safe.

Safeguard your assets

Many companies are still under the impression that simple tracking or fleet management systems are enough to maximize security and increase productivity.

They're wrong.

Knowing where your vehicles and equipment are might not be enough. Only MAGTEC can ensure authorized personnel alone have access to your assets.

MAGTEC provides unmatched remote command and control of vehicles

Our ROI is unbeatable - ask us how.

MAGTEC - Maximize Control, Security and Profits

Install MAGTEC, so you can rest easy.

Call MAGTEC today to find out why our products and solutions are the preferred choice of companies who recognize that there is much more to safety and security than just tracking.
