

Fleet Management – Courier

Fleet Management and Control... so you can relax and focus on other things.

You are responsible for delivering the goods on time and undamaged. But how do you manage your drivers to ensure that happens? Do you know what your drivers are doing when no one's looking?

Unattended vehicles are prime targets for theft. You could be faced with:

- » Replacement costs
- » Recovery costs
- » Deductibles
- » Skyrocketing insurance

If your vehicle is stolen, you've lost the packages your customers have entrusted to you. **Be the preferred courier because of your reputation for prevention.**

Peace of Mind

Ensure yours by installing MAGTEC's advanced security system on your vehicles. MAGTEC is the only technology that gives you **COMPLETE ACCESS CONTROL over your vehicle 24/7**. With MAGTEC in place, you can:

- » Enforce Compliance
- » Improve Safety
- » Enforce Compliance
- » Monitor Maintenance

MAGTEC allows you to monitor your fleet 24/7 with a comprehensive solution to stop theft, prevent unauthorized access and non-compliant operational use for more efficient dispatching by returning command, control and full visibility back to you.

DEAD SIMPLE TO USE

It starts with hardware installed on each vehicle - an on-board computer that automatically secures the vehicle. A simple, easy to use keypad allows access.

Each operator must enter a unique PIN before the engine can be started. That PIN can be remotely managed by using MAGTEC's secure, central management web-based software. This powerful, easy-to-use tool returns the operational power back to you, instantly.

In case of a hijacking, the driver has a wireless panic button, which allows the driver to shut down the truck and send an Immediate Alert.

Only MAGTEC offers a comprehensive solution to prevent theft and reputation damage, returning command, control and full visibility back to you.

Get real-time answers to these questions

- » Is my vehicle where it's supposed to be?
- » Who has access to my vehicle?
- » Are my drivers efficiently planning their routes?
- » Are my drivers where they're supposed to be?
- » Are my deliveries safe?

MAGTEC gives you access control to your vehicles anywhere, anytime - 24/7.

With MAGTEC's advanced command and control solutions you can

- » Set up driver profiles on vehicles
- » Set up geo-fences and routes
- » Report on operational statistics such as Run-time, Trip reports, Idle times, Driver ID and Exceptions
- » Set up operation schedules
- » Check seat belt, engine status and other event indicators
- » Create multiple map views
- » Provide detailed location information

MAGTEC is the only advanced fleet security and control solution vetted by The Department of Homeland Security (DHS) and The Transportation Security Administration (TSA). We keep your vehicles, your cargo and your reputation safe.

Safeguard your drivers and their vehicles

Many companies are still under the impression that simple tracking or fleet management systems are enough to maximize security and increase productivity.

They're wrong.

Knowing where your vehicles are might not be enough. Only MAGTEC can ensure authorized personnel alone have access to your trailers.

MAGTEC provides unmatched remote command and control.

Our ROI is unbeatable - ask us how

MAGTEC - Maximize Control, Security and Profits

Install MAGTEC, so you can rest easy.

Call MAGTEC today to find out why our products and solutions are the preferred choice of companies who recognize that there is much more to security than just tracking.
