

Fleet Management – Utilities

Enhanced Fleet Security
Control Compliance, Productivity and Accountability
... so you can relax and focus on other things.

Operational costs are skyrocketing – fuel, wages, insurance...
how do you control access and costs?

Are your employees spending more time at the coffee shop
than at work? How do you prevent extended coffee/lunch
breaks and unnecessary mileage?

Unattended, idling vehicles leave a big carbon footprint and
are prime targets for theft.

What about access control – what have you done to ensure
only authorized personnel are operating your equipment?

Peace of Mind

Ensure yours by installing MAGTEC's advanced safety
and security system on your trucks. MAGTEC is the only
technology that allows companies **COMPLETE ACCESS
CONTROL** over their vehicles 24/7. With MAGTEC in place,
you can:

- » Check Routes and Schedules
- » Block Unauthorized Drivers
- » Set Maximum Speeds
- » Keep Fuel and Insurance Costs Down
- » Maintain Complete Control

With MAGTEC's solutions you can be confident that your
remote workforce is operating as safely and efficiently as
you require.

DEAD SIMPLE TO USE

It starts with hardware installed on each vehicle — an on-board computer that automatically secures the vehicle. A simple, easy to use keypad allows access.

Each operator must enter a unique PIN before the engine can be started. That PIN can be remotely managed by using MAGTEC's secure, central management web-based software. This powerful, easy-to-use tool returns the operational power back to you, instantly.

In case of an injury or incident, MAGTEC's Lone Worker/ Man Down solution gives your personnel the ability to signal for help.

Only MAGTEC offers a comprehensive solution 24/7 to prevent unauthorized use of your equipment, ensuring you maintain full visibility and control.

Safeguard your bottom line AND your vehicles and equipment

Many companies are still under the impression simple tracking or fleet management systems are enough to maximize security and increase productivity.

They're wrong.

Knowing where your vehicles and equipment are might not be enough. Only MAGTEC can ensure authorized personnel alone are in control of your vehicles.

MAGTEC provides unmatched remote command and control of vehicles

Our ROI is unbeatable - ask us how

MAGTEC - Maximize Control, Security and Profits

Install MAGTEC, so you can rest easy.

Call MAGTEC today to find out why our products and solutions are the preferred choice of companies who recognize that there is much more to safety and security than just tracking.

Get real-time answers to these questions

- » Where is my vehicle?
- » Who is operating the vehicle and equipment?
- » Does the vehicle need to be shutdown immediately?
- » Are they operating the vehicle safely?
- » Is it being operated within the assigned zone?
- » Is it being operated out of the assigned schedule?

MAGTEC keeps your vehicles, your equipment and your reputation safe.

MAGTEC is the only advanced fleet security and control solution vetted by The Department of Homeland Security (DHS) and The Transportation Security Administration (TSA). We keep your vehicles AND your reputation safe.
